

## SMART PORT CHALLENGE 2020

### Optimization Analytics Technology Pte. Ltd. Singapore

At OAT, we serve customers with analytical approach to better decision making in business strategies and operations. We live and breathe optimization and advanced analytics. By implementing the technology, we facilitate business growth and powerful insights to our clients. We have successfully implemented projects for vessel scheduling optimisation, bulk sales order planning and tanker scheduling at marine logistics. Our business goal is to bring the value of informed decision-making to business users.
